Pool

Currently, there are no barriers to the pool and the use of the swimming pool is at your own risk.

Garden & pool maintenance

We will do our best to service the pool and garden when you are out or no guests around, but this might not always be possible.

Animals and insects

We have no threatening species of pets or wildlife in the garden that we know of. It's a good idea to use insect repellent, particularly on windless summer nights. Sometimes in the summer there might be a cricket that makes its way into the house – a quick spurt of Doom, found in a tin in the metal cabinet and in the upstairs bedroom, will make sure that you get a good night's sleep. Squirrels run on the roof - it is advisable to close the skylights at night.
